Hello,

I am a frontend developer, a problem solver and a self-learner, able to work individually and as part of a team. I thrive on the success of delivering high-quality frontend products. I am proficient in HTML, CSS, SCSS, JavaScript, jQuery, React.js Hooks and Python.

I'm innovative, creative, a problem solver, and can think out of the box when it comes to designing and developing solutions. I have a thirst for continuous improvement in everything i do. As a self-taught, self-established developer, i'm naturally curious, and perpetually working to improve and increase my knowledge and skills. While much of my experience has been in the education sector, I understand the responsibility and social value of this sector and I am confident that knowledge and experience so far will be an asset to your organization.

My key strengths that would support my success in this position include:

- My ability to develop, translate and render high quality code from designs and wireframes.
- My ability to strive continually for excellence.
- My ability to be an excellent debugger.

With a BS degree in Education/Economics, I have a comprehensive understanding on time management and efficient teamwork. I also have experience in learning and applying new technologies as appropriate. I possess excellent analytical skills, high proficiency in Microsoft Office Suites for optimizing performance and I have strong written and Interpersonal communication skills. Please see my resume below for additional information on my experience.

Thank you for taking your time to read through. I look forward to speaking with you to further discuss my on my resume.

Onu Onyedikachi P.

SUMMARY

I'm a professional teacher and also a self-taught developer looking to build a career in tech. I want to join a team or work in an environment where I can offer my skills and continue to grow, learn, improve my skills and gain more experience, career growth, personal development and business ethics.. I'm a fast learner, problem solver and great at debugging. Working with a team of experienced and seasoned developers would mean a great deal to me.

Interest: Web Development, Coding, Python, Frontend, Tutor and Research.
